

De Dietrich Process Systems carries a full line of quality parts for glass-lined steel vessels and other process equipment. These parts are interchangeable with competitor's aftermarket items, allowing them to be used on many brands of equipment, not just DDPS products. Our range of aftermarket parts include, but are not limited to:

Spare and Replacement Parts

- Agitators (with competitive drive end designs)
 - GlasLock® Agitator Shafts: Single, Dual and Triple Tier Options
